CONCEPT / ASSESSMENT					
Score (0-10) 6 / 10 ↑ (Based on the degree of information available)					
Recommended credit limit:	Recommended credit limit: 00.000 € Standard business risk				
Credit opinion: Favorable					
General conclusions:					

Company established in 000 dedicated to the manufacture and distribution of xxxxxxxx intended mainly for the automotive and electronics sectors. It supplies steel products with high and low carbon content, stainless steel, copper and its alloys, as well as aluminum.

The company has its origins in a business founded in 19XX by the XXXXXX family.

It belongs to the family business group "XXXXXXXX".

It currently distributes its products in +20 countries, mainly in the European market.

It maintains a strong foreign trade operation.

He is the owner of real estate.

Adjusted financial autonomy with a high level of indebtedness (required liabilities) that is structured in the short term and corresponds to 59.78% Debts with commercial creditors and 40.22% to Other financial liabilities.

Excellent profile of the financial debt with third parties that indicates a reduction in the net leverage ratio and an improvement in the ability to meet its financial obligations.

We understand that you have an excellent ability to pay your current commitments.

Irregular general evolution of the Income Statement with an increase in turnover, an increase in the cost of sales and an improvement in the Gross Margin, which, added to the evolution of the Structure Costs, decreases the EBIT (Operating Income) being the BAI of €86 thousand and the EBIT ratio on sales of +2.95% (+4.20% in 2020).

Good overall concept.

Sociedad de Muestra, S.L. B00000000 6 de 8

# Synthesis of financial analysis:

Adjusted financial autonomy that represents 37.92% of total liabilities (35.66% in 2020), therefore its level of indebtedness (payable liabilities) is high, being structured at -0.31% in the long term and in a 100.31% short-term, 59.78% corresponding to Debts with commercial creditors and 40.22% to Other financial liabilities.

Its level of bank indebtedness represents 0.62% of the demandable liabilities, decreasing with respect to the previous year, being structured in 100% long-term.

Excellent profile of the financial debt with third parties with a Net Financial Debt of €37 thousand (€357 thousand in 2020) and a NFD/EBITDA ratio of 0.36x (2.96x in 2020), which indicates a reduction of the net leverage ratio and an improvement in the ability to meet its financial obligations.

The Working Capital for the last financial year is €377 thousand (€320 thousand in 2020).

The working capital / current liabilities ratio is 0.43x and therefore good.

The Liquidity ratio is tight and the Cash and Availability ratios are excellent.

The average collection and payment periods indicate that the business cycle is unfavourable.

We understand that you have an excellent ability to pay your current commitments.

The Net Turnover increased by +15.49% to €2,922 thousand, increasing Supplies by +25.43%, which represents an increase in the Cost of Sales. As a result of the above, the Gross Margin increased by +11.94% to €795 thousand.

Structure costs increased which, added to the evolution of the Gross Margin, entailed a reduction in the EBIT (Operating Income) in absolute values of -19.70% to €87 thousand.

The evolution of EBITDA is also unfavorable with a reduction of -14.44% to €103 thousand.

The negative financial result is irrelevant.

The Company presents an EBITDA of €86 thousand (€106 thousand in 2020) and an EBT over sales ratio of +2.95% (+4.20% in 2020).

The evolution of the company has been irregular in general terms, requiring periodic monitoring of its evolution as well as analyzing its annual accounts for 2022 as soon as they are available. Its medium-term trend is irregular, however the rating can be maintained in said term.
